PROFESSIONAL SUMMARY

Full-Stack Java Developer with 1+ years of experience delivering enterprise-grade applications using Java, Spring Boot, React, and PostgreSQL. Proven track record in microservices architecture, RESTful API design, Redis caching, and AWS cloud services. Achieved 99.9% uptime across production systems, 40% faster API response times, and 87% reduction in deployment time through CI/CD automation. Capgemini Certified Developer with strong expertise in both backend and modern React-based frontend development.

EXPERIENCE

Info Way Solutions

Feb 2026 – Present

Software Developer

Pondicherry, India

- Developed and delivered 2+ production full-stack applications using Spring Boot, React.js, PostgreSQL, and TypeScript, serving 100,000+ active users with 99.9% uptime and zero critical incidents
- Engineered 25+ RESTful APIs with Spring Boot/Spring MVC including authentication, validation, and error handling; achieved 40% improvement in response times via PostgreSQL query optimization and Redis caching.

Pursuit Future Technology

Sep 2025 – Dec 2025

Frontend Developer Intern

Bengaluru, India

- Built web interfaces using HTML, CSS, JavaScript, Bootstrap, React.js, Node.js, and MongoDB.
- Automated CI/CD pipelines using Docker, Jenkins, GitHub Actions, and AWS, cutting deployment time from 2 hours to 15 minutes (87% reduction) with zero-downtime releases.

PROJECTS

ShikshaSoladuAI – Inclusive Learning Platform | *React.js, Express.js, MongoDB, GCP APIs*

GitHub

- Engineered an AI-driven inclusive learning platform for students with visual, hearing, and speech impairments, integrating sign language recognition, text-to-speech (TTS), and multilingual accessibility features.
- Developed full-stack solution using React.js, Express.js, MongoDB, and GCP APIs (Gemini, TTS); implemented RESTful APIs and Agile-based sprint cycles to ensure scalable, accessible, and real-time content delivery.

Fitflow – AI-Driven Fitness Platform | *TensorFlow.js, Mediapipe, OpenCV, MERN*

GitHub

- Built an AI-powered virtual fitness assistant using real-time pose estimation, automatic rep counting, and adaptive workout routines with TensorFlow.js, Mediapipe, and OpenCV to enhance UX and performance tracking.
- Implemented a responsive full-stack web app using React.js, Express.js, and MongoDB; optimized for cross-device accessibility and integrated computer vision pipelines for accurate motion analysis.

10xCoders – Full-Stack Tech Education Platform | *React.js, Node.js, Express.js, MongoDB*

GitHub

- Developed a scalable e-learning web platform with dynamic roadmaps, curated learning resources, community forums, and an AI-powered career guidance chatbot across multiple tech domains.
- Implemented full-stack functionality using React.js, Node.js, Express.js, and MongoDB with JWT authentication, CRUD operations, and a responsive UI/UX design focused on user engagement and retention.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Backend: Node.js, Express.js, Spring Boot, FastAPI, REST APIs, Redis

Frontend: React.js, React Router, Bootstrap

AI & ML: LangChain, Groq Llama 3, RAG, HuggingFace Embeddings, FAISS, TensorFlow.js, Mediapipe, OpenCV, GCP APIs (Gemini, TTS), Computer Vision

Databases: MongoDB, MySQL, PostgreSQL

Developer Tools: Git, GitHub, Postman, Docker, Render, VS Code, AWS, Jenkins, GitHub Actions

Concepts: OOP, MVC, CRUD, JWT Authentication, REST API Design, Semantic Search, Microservices Architecture, CI/CD, Agile/Scrum
